

The **International Society for Clinical Biostatistics (ISCB)** is an international society which welcomes biostatisticians and members of other disciplines, such as clinicians, epidemiologists, clinical chemists and clinical pharmacologists, working or interested in the field of clinical biostatistics.

ISCB sponsored COURSES

The terms of reference established by the ISCB state that the Education Subcommittee should “support and organise educational activities, such as short-courses, webinars and seminars on contemporary methods in clinical biostatistics”.

Due to current restrictions on travel and social distancing due to COVID-19, we invite potential local organisers to propose **online or web based** statistical training activities to take place during the period 1 July 2020 to 31 December 2020.

Any topic in biostatistics and any learning methodology is welcome.

Proposals should be sent electronically to: educ@iscb.info.

More information can be found in the website’s “Education” section:

[http://www.iscb.info/Committees/Education-\(Educ\).html](http://www.iscb.info/Committees/Education-(Educ).html)

Please forward this notice to your ISCB colleagues and encourage them to apply. Organisers must be ISCB members to be eligible to apply for funding for a sponsored course.

Training funded by ISCB

ISCB funds training directed towards target countries in Eastern Europe, Africa, South and Southeast Asia, the Middle East, South and Central America and the Caribbean. Courses need to show benefit to target countries. We temporarily restrict proposals to online courses whose delivery will be more feasible and widely accessible while the COVID-19 pandemic restricts travel and social contact.

Financial support will not exceed a total of 2000 euros per country.

Proposals should be sent electronically before 10 May 2020 to educ@iscb.info. Decisions will be communicated before 31 May 2020.

Advertised training using the ISCB name

ISCB supports training by lending the ISCB name and by disseminating it among ISCB members.

In return, organisers are expected to offer current ISCB members a discount on the registration fee and to publicly recognise ISCB support.

Proposals must be submitted at least 1 month before the proposed activity.
