

2019 NOMINEE BIOSKETCH FORM

NAME	Geir Egil Eide
PRESENT POSITIONS	<ol style="list-style-type: none"> 1. Biostatistician at the Centre for Clinical Research, Haukeland University Hospital, Bergen, Norway 2. Adjunct Professor of Clinical Biostatistics at the Department of Global Public Health and Primary Care, Life Style Epidemiology Research Group, University of Bergen, Bergen, Norway.
DEGREES	CandReal, DrPhilos (PhD)
MAIN RESEARCH INTERESTS	Main interests are methods for epidemiological and clinical studies, especially survival analysis and attributable fractions.
SELECTED PUBLICATIONS IN CLINICAL BIOSTATISTICS (LIMIT TO 5)	<ol style="list-style-type: none"> 1. Eide, Geir Egil & Heuch, Ivar (2006) Average Attributable Fractions: A Coherent Theory for Apportioning Excess Risk to Individual Risk Factors and Subpopulations. <i>Biometrical Journal</i> 48, 5, 820-837. 2. Eide, Geir Egil & Heuch, Ivar (2006) A Scaled Sample Space Cube Used to Illustrate Attributable Fractions. <i>Biometrical Journal</i> 48, 1, 93-104 3. Eide, Geir Egil & Heuch, Ivar (2001) Attributable fractions: fundamental concepts and their visualization. <i>Statistical Methods in Medical Research</i> 10, 159-193 4. Eide, Geir Egil; Omenaas, Ernst & Gulsvik, Amund (1996) The semi-proportional hazards model revisited: practical reparametrizations. <i>Statistics in Medicine</i> 15, 1771-1777 5. Eide, Geir Egil & Gefeller, Olaf (1995) Sequential and average attributable fractions as aids in the selection of preventive strategies. <i>Journal of Clinical Epidemiology</i>, 5, 645-655.
PAST AND CURRENT PARTICIPATION IN ISCB ACTIVITIES	<p>My first ISCB Meeting was in San Marino in 1984. I was a member of the Subcommittee on Epidemiology since its formation until its end in 2017. I chaired the local organising committee for the ISCB-conference in Bergen in 2012, and is a member of the Conference Organising Subcommittee (Chair from 2017). I am the present Secretary (2017-18) of the Society.</p> <p>Home pages: http://www.uib.no/en/persons/Geir.Egil.Eide#uib-tabs-teaching https://www.facebook.com/geiregil.eide</p>
GOALS AND VISION FOR THE ISCB	<p>It' was an honour to be nominated again for the position as Secretary of the ISCB. Having been Secretary for 2017-18 has given me further in sight to the activities of the Society which will be of great value for a second period as Secretary. I will humbly support the activities of the Society, especially in promoting professional development for younger biostatisticians and making biostatistics more applicable and accessible for researchers in medical and health related research through promoting environments and funding for further developments of relevant statistical methods and software.</p>
